

CRYOSKIN

Make Every Body Proud.

Non-invasive slimming technology to help you shape the body you want.

What is Cryoskin?

Cryoskin is a device used to reduce inches and smooth skin. Clients can see results after one session, but best results after about 5 sessions.

How does it work?

The session lasts for 28 minutes and is done manually through a massage technique. The sessions are 100% non-invasive and there is no downtime.

How quickly will I see results?

The first results are generally visible from the first session and often very encouraging. 78% of clients say their results are excellent.

CHECK OUT OUR CRYOSKIN BENEFITS

CryoSlimming®

CryoSlimming® uses cold temperatures to reduce inches. It is completely non-invasive and uses science that works with your body's natural systems. Don't just take our word for it, see the results for yourself!

CryoToning®

With CryoToning®, there's finally a real, non-invasive solution to help you smooth your skin. When diet and exercise aren't enough, Cryoskin will help you to achieve the look you've been striving for.

CryoFacial

CryoFacial uses cool temperatures to reduce the appearance of fine lines and wrinkles . A natural, non-invasive way to look younger and more radiant.

Cryoskin cools the skin just enough to reduce inches whilst improving the quality of your skin.

No suction, no surgery. Just incredible results.
